Hazmat and/or Meltblown Sorbent Sock (Mini-Boom)

Spilfyter brand Hazmat and/or Chemical Absorbents product.

Hazmat and/or Meltblown Sorbent Sock (Mini-Boom)

Usage

- Premium sorbent for extended-use/high durability.
- Use Hazmat socks when the liquid is aggressive or unknown as a "no-decision" response.
- Yellow color is highly recognized as the universal "caution" color.
- Available in two lengths for a customized fit.
- Encased in polyester casing which allows for stretching around equipment.
- Surround spills to prevent spreading.
- Wrap around leaky drums, tanks and sinks.
- Wrap around machine bases for leak protection.
- Contained absorbent makes cleanup quick and easy.
- Use in conjunction with our Chemical Classifiers when the nature of the spill is unknown.

Components

Meltblown Polypropylene

Tech Specs

Range	NA
Color	Yellow
