UV Climate Test Chamber

Introduction

UV Climate test chamber is used for testing light fastness and aging resistance of non-metallic materials

TCT UV Climate test chamber is used with 8 pcs UV340 or UV313 lamps, users can adjust the lamp quantity and illumination intensity by manual

Irradiance controlling meter is the same as "Eye", it can monitor the irradiance intensity and adjust the lamp power, so that, the lamp life can be up to the best longest life.

| 44 | Using Areas | | |
|----|------------------------|---|-----------------------|
| > | Science laboratory | > | Universities |
| > | Textile industry | > | Research institutions |
| > | Productive enterprises | > | Others |

The advantages of TCT UV Climate Test Chamber

- The using life of lamps is longer
- The operation is easy with PLC touch screen controller
- Users can choose UVA-340 or UVB-313 lamps in the working room
- 1 year warranty period for machine + 3 years free providing for spare parts

Production Standards

- GBT16422.3、GBT14522、GBT5170.9、GB16776.
- JIS D-0201、H-8502、H-8610、K-5400、Z-2371、ISO3768、3769、3770
- ASTM G154、ASTM G151

| ♣ Common Specifications | | | | |
|-------------------------|-------------------------------------|--|--|--|
| Internal Materials | SUS304 Stainless Steel | | | |
| Working Room Size | 400×1140×390mm (D×W×H) | | | |
| Lamps | UVA-340 or UVB-313 (8 pcs) | | | |
| Wave Length | UVA (315 ~ 400nm), UVB(280 ~ 315nm) | | | |
| Lamp Power | 40W / Each | | | |
| Lamp Life | ≥1600 hours | | | |
| Test Time | 0 ~ 999 hours(Adjustable) | | | |
| Center distance of lamp | 70 mm | | | |

| Distance of specimen and lamp | 50±3mm | | |
|-----------------------------------|--|------------------------|--|
| Irradiance | 1.0 W/m2 (Adjustable) | | |
| Effective Radiation Area | 900×290mm | | |
| Irradiance blackboard temperature | +50°C ~+70°C | | |
| Specimen Size | 75×290mm | | |
| Specimen Shelf Quantity | 24 sets | | |
| Temperature Range | Rt +10°C ~+70°C | | |
| Temperature Fluctuation | ±0.5℃ | | |
| Temperature Uniformity | ±1.0°C | | |
| Humidity Range | ≥90%RH | | |
| Water Consumption | 8 liters/ day | | |
| | Controller | PLC controller | |
| Control system | Running mode | Fix or Program running | |
| | Sensor | PT100 | |
| | Over-temperature protection | | |
| | Electric leakage protection | | |
| | Power phase protection | | |
| Safety function | Over-current protection | | |
| | Fuse protection | | |
| | Water shortage protection | | |
| | Ground protection | | |
| | Temperature | ≤+30°C | |
| Using environment | Humidity | ≤85% RH | |
| | Atmosphere | 86 ~ 106 kPa | |
| Noise | ≤65 dB | | |
| Water source standard | Purified water | | |
| Power supply standard | ower supply standard 120V/220V/240V/380V/415V, 50Hz/60Hz, Single or three phases | | |

| # Standard Model | | | | |
|---|--------------|--------------------|-------------|--|
| Model | Condensation | Irradiance Control | Water Spray | |
| Se-001 | Yes | Yes | Yes | |
| Se-002 | Yes | Yes | No | |
| Se-003 | No | No | No | |
