

Stainless steel type flour-mixing dough mixers

Model: **APEX-LJ600**

Standard: **GB 22748-2008&MOD EN 453:2000**

Introduce: Introduction: flour-mixing dough mixer is the main grain processing equipment, it is mainly used for wheat flour and water 1:0.38-0.45 proportion,...

Detailed product information

Introduction:

flour-mixing dough mixer is the main grain processing equipment, it is mainly used for wheat flour and water 1:0.38-0.45 proportion, according to the user process requirements (sometimes add edible oil, sugar, and other food and food additive) mixed into the dough, widely used in the dining room, restaurant and pasta noodle processing unit processing, is the substitution of manual, reduces the labor intensity, meet the people's diet health requirements of the ideal equipment, can also be used to other similar material mixing and mixed.

Features:

1. Our flour-mixing dough mixer have the characteristics of compact structure, fine appearance, safe and easy to operation.
2. It is ideal machine for food processing factories, cake shop and so on.
3. Our flour-mixing dough mixers are made of stainless steel.
4. It has compact structure, high efficiency.

Main specification:

Model	The weight of mixing flour per time (kg/time)	power supply	Power(kw)	Dimension (mm)	Note
APEX-LJ600	12.5	220V~	1.1	640*420*630	Manual sl
		380V3~	1.1		
APEX-LJ601	20	220V~	1.5	760*600*850	Manual sl
		380V3~	1.5		
APEX-LJ602	25	380V3~	2.2	900*650*900	Manual sl
		220V~	2.2		
APEX-LJ603	25	380V3~	2.2	800*640*920	Manual sl
APEX-LJ604	35	380V3~	2.2	1080*850*870	Manual sl
APEX-LJ605	30	380V3~	1.5	850*460*950	Foot manua
APEX-LJ606	50	380V3~	3	1170*850*950	Manual sl
APEX-LJ607	50	380V3~	3	1040*630*960	Manual sl
APEX-LJ608	50	380V3~	2.2	980*510*1010	Foot manua
APEX-LJ609	75	380V3~	3	1100*680*1150
