

## AR5750A: Refrigerant Leak Detector

Refrigerant Leak Detectors is an industry grade halogenated refrigerants gas detectors.

- It is suitable for detect all type of halogenated gas, Moreover, It can detect:  
CFCs: R11, R12, R500, R503, etc.  
HCFCs: R22, R123, R124, R502, etc.  
HFCs: R134a, R404a, R125, etc.
- Detects the medical equipment's ethane oxide, Ethanol gas, etc;
- Detects the fire protection system's Halon gas
- Detects the air-conditioning, refrigeration systems, or refrigerant recycle system etc.
- The flexible probe can easily access any areas;
- Use the high effective mechanical pump to decrease the reactive time, Increase value compensation.
- The revolutionary scan detection, increase the sensitivity and leakages detect speed.

Specifications	
Detecting item	All type of halogenated gases
Ultimate sensitivity	5 AEJ1607 Level standard, 0.5 oz per years
Response time	Instantaneous
Warm up time	<110sec./<90scc.(in 25 °C ,60%RH)
Low battery indication	5±0.3V/5.5±0.3V

AR5750A

Dimensions	234 x 86 x 46mm
Weight	615g with Batteries
Power Supply	6V Ni-Mh rechargeable batteries
Included Accessories	Carry box with batteries, Power supply adapter, and Instruction manual
Standard Individual Packing	Gift box with carrying case inside
